

## Junior Developer – Denver, Colorado

Weaver Multimedia Group, a well-established multimedia company serving the travel and tourism industry has an immediate opening for a full-time Junior Developer in Denver, Colorado. We are looking for a self-starter, who is willing to learn in a dynamic company and industry.

Skills required include:

- Must have experience with PHP and some object oriented design.
- Must have experience with HTML, CSS, and some javascript.
- Must be able to edit HTML manually.
- Must be willing to work in a team environment.
- Linux server exposure is preferable.

We offer a competitive salary range commensurate with experience, excellent benefits, 401(k) and generous paid time off.

Submit resume and salary requirements to [jobs@weaver-group.com](mailto:jobs@weaver-group.com) referencing Junior Developer in subject line. Learn more about Weaver Multimedia Group at [www.weaver-group.com](http://www.weaver-group.com).
